

**PREDICT-2 M&A Call**

**Tuesday, March 6th**

**11:00 am PST/2:00pm EST**

- 1. Welcome to MB, WCS, and SI representatives - overview of P2-wide M&A call goals
  - a. Lindsey Shield and Dawn Zimmerman from Smithsonian, Sarah Olson from WCS, Dave McIver from MB
- 2. Progress updates on intervention policy modeling projects
  - a. Peter revisited Goal of these: Rapidly analyses for policy recommendations using some PREDICT data + models and open source data. Outputs: 2 page Emerging Disease Insights immediately, potentially papers later
  - b. Kevin circulated current version of 16 project spreadsheet, *please read and send any additional comments/add people (send contact info) or confirm.* We will then report back/circulate to EB tomorrow (we circulated spreadsheet and Brussels flip chart notes to EB, but no time to discuss on March 7th EB call, should table for March 21st).
- 3. Discuss three Emerging Disease Insights (GVP, Flavi, and viral curves):
  - a. *Please send any edits or comments by March 16th*
  - b. Next step to send to EB March 21st, then to USAID
  - c. *EHA will rebrand EDI template for PREDICT*
  - d. Agreed that it would be best for UCD to pursue separate Flavivirus EDI based on their submitted paper.
- 4. Capacity building goals and Y4 workshops
  - a. Proposed In-Country Workshop in conjunction with FAO
    - i. Regional risk-mapping workshop in Bangkok proposed
    - ii. KJO, Carlos, met with FAO team at PMAC to discuss
      - 1. Agreed Peter Black to discuss with FAO at large end of March to get a sense of interest from country teams from FAO perspective
    - iii. Who would invite? Size? What is scope? Work with PREDICT in-country teams to identify. Start at the bottom.
    - iv. PREDICT Laos (MB), Viet Nam (WCS) would want to participate
    - v. Agreed this is will be basic capacity building exercise for PREDICT and non-PREDICT participants, not tasking with PREDICT analyses. PREDICT will not be required to send participants, will not clash with core PREDICT activities.
    - vi. Goal to provide general exposure vs detailed training in risk mapping, potential to identify priority people for more in depth training, e.g. M&A fellowship in the future
    - vii. Discuss on EB, March 7th (didn't have time to discuss as call ran over, should table for EB call on March 21)
  - b. Indonesia still interested in country-specific workshop, but may be covered through EHA IDEEAL project capacity building
  - c. Nepal had previous workshop in conjunction with FAO
- 5. Semi-Annual Report

- a. Due end of April for Y4 report cycle October 2017-March 2018
  - b. *Please send any project updates, figures, etc for inclusion*
  - c. We will be request this first week of April.
- 6. Other topics from partners?
  - 7. Next P2 M&A call: Wednesday, **April 25th 1 pm PST/ 4 pm EST**
